OUR STORY

Our founder wanted to brew the country's best beer, so he moved to the country's least beer drinking state. He named us after a mountain range that even people here mispronounce (you-in-tuh).

We've been brewing and exploring since 1993, and here's what we've learned: there's no one right way to get anywhere.

What you need isn't a well-trod path, it's a compass to trust as you cut your own. Following ours is how we ended up in Utah, and what we found here still inspires every beer we brew.

We're not saying move to Utah... we're saying find yours.
